DETAILED ACTION

Response to Amendment

1. This action is in response to amendment filed May 11th, 2005.

REASONS FOR ALLOWANCE

2. Claims 1-15 & 17-20 are allowable over the prior art.
3. The following is an examiner's statement of reasons for allowance:

With respect to claims 1, 8, & 17, US 6,654,110 B2 to Yonezawa et al disclose a beam inspection apparatus for a photomask substrate (6), disposed on moveable stage (5). Light source (1) serves as a beam generator, while Yonezawa et al discloses stage (6) to move the substrate in a way illustrated in figures 6 & 7. Yonezawa et al disclose image sensors (11, 16) and a defect detection circuit (45) as a controller. However, Yonezawa et al do not disclose nor suggest the properties of substrate (6) determined based on the order of the digital signals based on a relationship between the variable scanning angle and the selectable speed, where the resolution of the inspection system is variable based on the variable scanning angle and the selectable speed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
